

**VISITORS TO SCHOOL**

**GKC-R**

The Board and staff welcome members of the community and other interested persons to visit the District. School improvements often come from suggestions originating in such visits.

The campus principal shall:

1. Encourage visitors to observe our schools.
2. Provide for appropriate hospitality for visitors.
3. Channel expressions of approval as well as constructive criticism to the Board.
4. Ensure that such visits enhance the effectiveness of the educational program rather than hinder it.

Visitors and staff shall comply with requirements in board policy GKC(Local).

Vendors seeking to conduct personal business with staff members shall not be allowed in schools for that purpose. Staff members shall not set up appointments with vendors to discuss personal business at school.
